

Hoshin Kanri

Deliver well-balanced, connected, and transparent plans with the only rotatable x-matrix

Crystal clear visibility

i-nexus removes the bad from Hoshin Kanri.

No broken spreadsheets. No searching for the right plan. i-nexus makes everything crystal clear.

Every goal and project feeds success. Automatically create your metric bowling chart. Account for every resource and owner. Every corner of your business connected to the i-nexus x-matrix.

With i-nexus, Hoshin Kanri is simply easier and takes less effort.

Making Hoshin easier

The small things matter. So, unlike other x-matrix software or spreadsheets, the i-nexus x-matrix rotates, unlocking unmatched value.

Rotate the plan to the level you're interested in. Experience an unlimited version of x-matrix planning. Go beyond the surface and pinpoint the operational barriers between you and your strategic goals.

With i-nexus, there's no printing copies or a need to master spreadsheets. Everything you need is *here*.

Focus your plan

Our x-matrix puts you in control of building and delivering a focused, balanced plan.

That means focusing on where your team spends their time, balancing your resources by spotting execution overlaps, and delivering that plan with clarity of performance.

Our x-matrix opens up a world of detail to ensure you can spot what makes, or breaks, your plan.

Connectivity

Connectivity is at the core of our Hoshin Kanri toolset.

Our x-matrix isn't just a planning tool. Build your x-matrix in i-nexus and you'll enjoy automatically generated bowling charts based on your plan.

But it doesn't stop there. You can build supporting projects, countermeasures, and metrics inside the x-matrix and bowling chart.

i-nexus is *the* place for your goals, cutting admin down to size.

Eliminate your execution gap

i-nexus shows you what's causing your gaps, letting you focus on where to double-down efforts to improve, and keep track of the areas you'll excel in

Strategy realization

i-nexus gives your strategy office the visibility and clarity needed to connect strategy to operations and hit targets

Cascade strategic goals

i-nexus helps you create clear goals and targets in every corner of your business, guiding the resources, programs, and reports key to your deployment

Know if strategy's delivering

i-nexus uses every piece of data to create a picture of your strategy delivery, forming insights that mean you'll always know whether your plan will succeed

One plan, one direction

i-nexus stops the jumping between spreadsheets and systems, so you can manage your plan in one location

Digitalize strategy execution

i-nexus replaces spreadsheets and integrates with your systems, creating real change with automated reporting, workflows, and processes standardization – the formula to drive home how you want to deliver your strategy

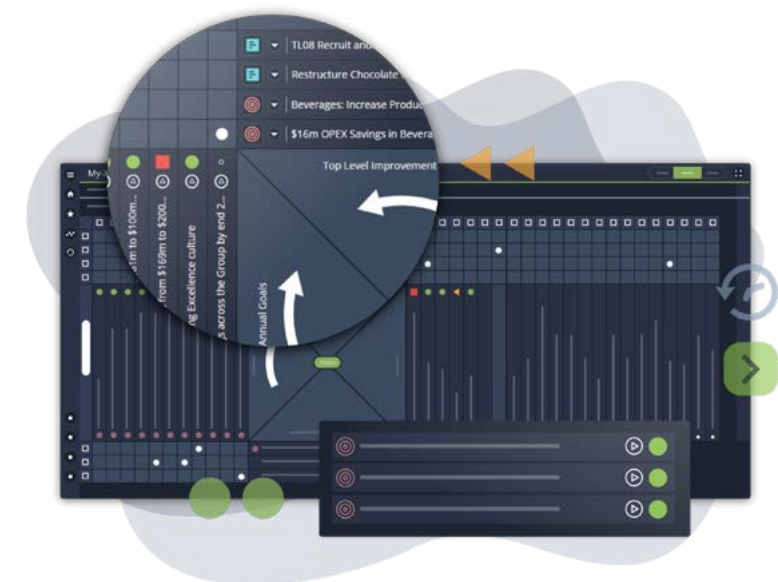

Overcome blockers

i-nexus brings together what makes your business your business – processes, languages, people – all aligned, ready to overcome blockers on the road of change

Respond with agility

i-nexus doesn't just focus on today – you can build your next plans while executing today's, helping you respond to whatever comes

The tools you'll be using

i-nexus takes you out of spreadsheets, slides, emails, folders, and countless project management solutions. In its place are tools that offer a canvas for planning, executing, and tracking what's driving your goals.

The place to plan

Bring your strategic plan to life and leave behind emails, slides, and spreadsheets inside one solution – i-nexus.

With the multi-dimensional x-matrix planning tool, and collaborative catchball goal setting, you can easily build all the elements of your plan, keep them connected, and focus all activity against one shared true north so that you're confident of an error-free, robust plan.

X-matrix planning

Build a robust plan with our interactive x-matrix, taking you from true north to breakthrough results

Catchball goal setting

Build, cascade, and agree on captivating, inspiring goals that your organization believes in

Build portfolios and projects

Create a balanced portfolio of improvement priorities, attach strategic themes, and build projects to bring strategy to action

Planning cycles

Use archive, current, and future state mode to call back to previous x-matrix plans, build your current direction on those insights, and plan for future scenarios, so that every plan is covered

Align everything to the plan

Take your plan to action with portfolios and projects, tightly aligned to your short- and long-term goals.

With i-nexus, you control the pace and quality of delivery with best-practice templates and process workflows, powered by a suite of tools to drive home the way you want to work and keep everything focused on true north.

Whether delivering a project, leading the PMO, or providing your executive team with insights, you'll drive buy-in of the plan, and build a stronger execution and achievement culture.

Portfolio execution

Track real-time portfolio performance and get early visibility of risks and delivery challenges to your plan's success

Program and project management

Create and manage projects, from simple "just do it" projects to larger stage-gate projects and complex programs

Govern your execution

Help your Hoshin deployment gain pace with best practice templates, techniques, and workflows to encourage the right steps are taken, by the right people, at the right time

Empower your team

Manage your team's growth and encourage improvement ideas you can execute in projects – all to reinforce shared ownership of achieving your goals

Know if the plan is working

Inside i-nexus, metrics and projects link, forming impactful KPI bowling charts and scorecards to focus your team, all easily updated with data and journals, creating a crisp picture of performance.

With the ability to analyze root causes and implement countermeasures, and use dashboards and automatic reports on financial targets and KPIs, you can keep everything on track, identify exceptions, and prove the impact and benefits of your plan.

Knowing if the strategy is going to plan is painless with i-nexus.

Automated KPI bowling chart

Track your metrics and KPIs real-time, with an on-demand bowling chart, readily updated by your team or integrated apps

A3 root cause analysis and countermeasures

Bring the plan back on track with exception reporting, and tools to find and correct root causes with A3 action plans and metric sheets

Clarity and engagement

Drive accountability by clearly showing your team how they support strategic goals, and keep them engaged with a view of the impact and benefits they're creating

Link results to financial measures

Keep track of financial targets across your organization, avoid double-counting, and ensure crystal clear reviews and assessments of results against variable forecast scenarios

Hoshin alongside your operational excellence

Whether it's PDCA problem solving on the shopfloor, or cross-functional work at a value stream level, i-nexus brings everything together, no matter your approach.

Kaizen

Live Kaizen philosophy with projects and programs linked to eliminating waste and making daily improvements inside i-nexus, so that you empower your organization to create projects, document actions, analyze data, and drive strategic value

Project management

Create simple projects based on your choice of tools, including PDCA, just do it, and DMAIC, with clearly defined charters, goals, schedules, metrics and kanbans to bring everything to life, all connected to your strategic goals

Lean

Deliver value stream projects to perfect flow and drive higher quality, executed and tracked within one system containing x-matrix, kanban, and deep project functionality

Process improvement

Identify problem processes using tools such as FMEA, 5 whys and 5S, find root causes, and fix the pain, with the efforts tracked within i-nexus for simple measurement and replication

Six Sigma

Run your statistical process analyses to eliminate and reduce variation in your processes with in-system templates for DMAIC, incorporating root analyses and FMEA functionality

Your system

Built your own operating system? i-nexus isn't limited to predefined methods. In fact, our users love our ability to customize and wrap the software around the way they achieve excellence

More goals, less effort

i-nexus takes you from plan to action with strategic portfolio management tools. Group projects and programs into strategic portfolios, keep on top of investments, resources, and ensure a business agility that allows you to adapt to tomorrow.

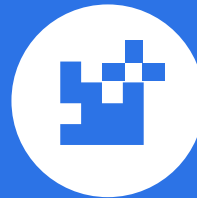

With i-nexus, you'll prioritize and align your portfolios with tools that help you.

Assess portfolios' alignment and impact on your goals

Balance capacity, demand, and schedules

Digitalize your ways of working

Evaluate performance, funding, and people

Analyze delivery and dependencies

Strategic portfolios you can manage in i-nexus include

ESGs

Solutions for every part of your business

No matter where you sit, i-nexus helps you achieve your goals with solutions that fit your entire business - from your executive team to finance and the shopfloor:

-  i-nexus Workbench gives you the tools to deliver your goals
-  i-nexus Pulse makes it easier to update metrics and journals on-the-go
-  i-nexus Data Warehouse (IDW) unlocks your i-nexus data for adhoc reporting in your BI tools

Matching your needs

i-nexus strategy software is built with integrated features, scalable to your needs, and accessible from wherever you are.

Collaborate, customize, govern processes and approvals, all based on your ways of working, it's all possible inside i-nexus.

Mission-critical safety

i-nexus strategy software is AWS hosted, with disaster recovery capabilities, 99.9% uptime, ISO 27001 certification, GDPR compliance, and more.

Your mission critical goals are safe inside i-nexus.

The i-nexus difference

We wrap around you

i-nexus wraps around how you want to deliver your goals. Languages, locations, products, processes. Exactly how you want it. All inside one solution.

We support

We use two decades of experience in strategy execution, Hoshin Kanri, Lean, and project management to help you overcome challenges, spot gaps, and accelerate success.

We integrate

i-nexus is your single source of truth, connecting project management software, ERP, CRM, and other critical systems to give you a total view of what matters to deliver results.

Trusted by global organizations

We needed saving from spreadsheet hell. i-nexus transformed our Hoshin Kanri method, replacing spreadsheets with a digital solution.

Better still, i-nexus has enabled us to take the next evolutionary step beyond KPI reporting and towards building a stronger countermeasure culture.

Mogens Saigal, Senior Director, Universal Robots A/S
