Accelerating your deployment

Accelerate i-nexus implementation so that you see improvements in your strategy execution sooner

We know excellence thanks to over two decades of experience in successfully deploying i-nexus.

We understand exactly what is needed to simplify your experience.

Building your solution

Our G2 award-winning team work closely with you throughout the deployment process and beyond, so that your implementation is smooth and successful.

We start by translating your ways of working and goals into an i-nexus blueprint. We then shape i-nexus to your exact needs. From there, our services team guide you through the journey of integrating i-nexus into your organization.

We'll become part of your team as you embark on a journey to simplified strategy execution.

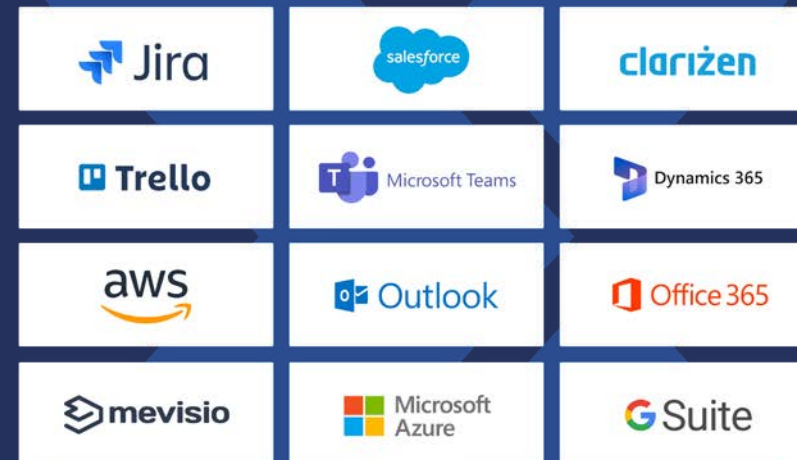

Integrations

i-nexus strategy software is *the* place for everything related to your strategic and operational goals.

Integrate with other solutions, from Business Intelligence tools - such as Tableau® - for enriched reporting and analytics to SAP® and other ERP systems holding key performance data.

Develop custom reports that match company standards, branding and process. Our integration and BI teams will help you realize your complete solution, from analysis and requirements to delivery

The i-nexus difference

We wrap around you

i-nexus wraps around how you want to deliver your goals. Languages, locations, products, processes. Exactly how you want it. All inside one solution.

We support

We use two decades of experience in strategy execution, Hoshin Kanri, Lean, and project management to help you overcome challenges, spot gaps, and accelerate success.

We integrate

i-nexus is your single source of truth, connecting project management software, ERP, CRM, and other critical systems to give you a total view of what matters to deliver results.

Trusted by global organizations

“Our goal was to automate manual performance reporting and demonstrate traceability between strategic objectives and our project delivery. In both cases, i-nexus has enabled us to deliver the outcome to the business.”
