

Bring strategy to action

i-nexus simplifies how you achieve your goals with solutions built to embrace the challenges of strategy execution and operational excellence

Connect the dots

i-nexus strategy software connect the dots for your goals across strategy execution and operational excellence.

With i-nexus, everything is crystal clear. Goals, portfolios, performance management and everything that matters is here and aligned to your goals.

Whether focusing on daily operations, seeking improvements to reach a state of excellence, pursuing significant strategic goals, or all three, i-nexus is the solution.

Let's show you why.

Close your strategy-to-execution gap

Get everyone focused and collaborating on your strategy. Designed for strategy offices and transformation teams, you'll have one direction, linked plans, portfolios, and performance metrics inside i-nexus, making for simple, effective strategy execution.

-  **Eliminate your execution gap**
i-nexus shows you what's causing your gaps, letting you focus on where to double-down efforts to improve, and keep track of the areas you'll excel in
-  **Strategy realization**
i-nexus gives your strategy office the visibility and clarity needed to connect strategy to operations and hit targets
-  **Cascade strategic goals**
i-nexus helps you create clear goals and targets in every corner of your business, guiding the resources, programs, and reports key to your deployment
-  **Know if strategy's delivering**
i-nexus uses every piece of data to create a picture of your strategy delivery, forming insights that mean you'll always know whether your plan will succeed
-  **One plan, one direction**
i-nexus stops the jumping between spreadsheets and systems, so you can manage your plan in one location
-  **Digitalize strategy execution**
i-nexus replaces spreadsheets and integrates with your systems, creating real change with automated reporting, workflows, and processes standardization – the formula to drive home how you want to deliver your strategy
-  **Overcome blockers**
i-nexus brings together what makes your business your business – processes, languages, people – all aligned, ready to overcome blockers on the road of change
-  **Respond with agility**
i-nexus doesn't just focus on today – you can build your next plans while executing today's, helping you respond to whatever comes

Powering your methodology

Whether following Hoshin Kanri, Balanced Scorecard, or your own business system, i-nexus powers your approach.

Hoshin Kanri

Remove Hoshin's complexity with i-nexus, featuring the only rotatable x-matrix, catchball goal setting, automatic bowling charts, and all the tools needed to align your business to true north

Balanced Scorecard

Translate strategy into action with our balanced scorecard, allowing you to focus everything against key perspectives, while i-nexus cuts admin down to size and powers better decision-making

Your approach

i-nexus goes beyond Hoshin Kanri and Balanced Scorecard – meaning you can apply your own business or operating system, with all the benefits of i-nexus powering your strategy execution

Make Hoshin Kanri easier

Deliver well-balanced, connected, and transparent plans with the only rotatable x-matrix. i-nexus removes the complexities that come with Hoshin Kanri, keeping everything crystal clear, automating once-painful admin, and giving you back the time to think – and act – strategically.

The only rotatable x-matrix

The small things matter. So, unlike other x-matrix software or spreadsheets, the i-nexus x-matrix rotates, unlocking unmatched value.

Rotate the plan to the level you're interested in. Experience an unlimited version of x-matrix planning. Go beyond the surface and pinpoint the operational barriers between you and your strategic goals.

With i-nexus, there's no printing copies or a need to master spreadsheets. Everything you need is here.

Focus on your plan

Our x-matrix puts you in control of building and delivering a focused, balanced plan.

That means focusing on where your team spends their time, balancing your resources by spotting execution overlaps, and delivering that plan with clarity of performance.

Our x-matrix opens up a world of detail to ensure you can spot what makes, or breaks, your plan.

Connectivity

Connectivity is at the core of our Hoshin Kanri toolset.

Our x-matrix isn't just a planning tool. Build your x-matrix in i-nexus and you'll enjoy automatically generated bowling charts based on your plan.

But it doesn't stop there. You can build supporting projects, countermeasures, and metrics inside the x-matrix and bowling chart.

i-nexus is the place for your goals, cutting admin down to size.

Operational excellence

Unlock repeatable value from operational activity. Built for PMOs and Lean, Six Sigma and process professionals pursuing an excellence mindset, inside i-nexus you'll execute your goals across portfolios, programs, and projects, exactly how you want, accelerating delivery times, instilling best practices, and ensuring everyone's work supports your strategic goals.

One location for excellence

i-nexus is the location for your projects and programs, so they no longer sit isolated in different software, folders, and spreadsheets, giving you the visibility, transparency, and common language needed to achieve excellence

Respond to results

i-nexus gives you the tools to identify root causes, implement countermeasures, and track the impact of the solution so you can replicate them in the future

Align operations to strategic goals

i-nexus gives your strategy office the visibility and clarity needed to connect strategy to operations and hit targets

Unearth value

i-nexus promotes regular submission of performance data and journals to help forecast savings, track improvements, and prove financial impact and tangible benefits, automated and ready to integrate into your reporting

Govern your processes

i-nexus allows you to implement workflows and approval processes to keep on top of policies being followed, driving accountability and standardization for greater results

Bring ideas to life

i-nexus encourages your team to submit ideas that align with your goals, create projects to bring those ideas to life, and easily show how they have contributed to the bigger picture

Track performance

i-nexus ensures you can set meaningful metrics and KPIs for your team, baseline, and then track performance with operational scorecards for simple performance management

Grow your skills

i-nexus gives your PMO, project, and Lean teams the tools to learn and mature according to your best practices, templates, processes, and methods, meaning you can deploy the right resources and skills within portfolios and projects

Deliver excellence with i-nexus

The foundation for excellence

Use our best practices, workflows, approval processes, and software to build fundamental project management skills all the way through to a team of highly-effective improvement professionals.

Inside i-nexus you'll have everything you need to achieve excellence.

Align your work to strategic goals

Because i-nexus is a strategy execution solution, your improvement efforts will no longer be siloed.

Portfolios of projects will have clear traceability to strategic goals.

Teams will understand how their work contributes to the bigger picture.

The same language, processes, and standards will be followed, creating a shared vision executed with focus.

Prove your value

With everyone and everything running through i-nexus, you have the information needed to control performance, overcome delivery challenges, and prove your value.

Automated reporting, scorecards, and a suite of benefit, impact, and financial metric visualizations, defines and demonstrates value, no matter the audience.

Cut down project delivery times, improve success rates, and achieve your improvement goals inside i-nexus.

Powering your approach

Whether it's PDCA problem solving on the shopfloor, or cross-functional work at a value stream level, i-nexus brings everything together, no matter your approach.

Kaizen

Live Kaizen philosophy with projects and programs linked to eliminating waste and making daily improvements inside i-nexus, so that you empower your organization to create projects, document actions, analyze data, and drive strategic value

Project management

Create simple projects based on your choice of tools, including PDCA, just do it, and DMAIC, with clearly defined charters, goals, schedules, metrics and kanbans to bring everything to life, all connected to your strategic goals

Lean

Deliver value stream projects to perfect flow and drive higher quality, executed and tracked within one system containing x-matrix, kanban, and deep project functionality

Process improvement

Identify problem processes using tools such as FMEA, 5 whys and 5S, find root causes, and fix the pain, with the efforts tracked within i-nexus for simple measurement and replication

Six Sigma

Run your statistical process analyses to eliminate and reduce variation in your processes with in-system templates for DMAIC, incorporating root analyses and FMEA functionality

Your approach

Built your own operating system? i-nexus isn't limited to predefined methods. In fact, our users love our ability to customize and wrap the software around the way they achieve excellence

One location for your *all* your tools

i-nexus gives you a canvas for planning, executing, and tracking your goals.

Plan

Build well-balanced, transparent plans aligned to your strategy with our x-matrix, balanced scorecard, and portfolio tools

Execute

Manage and balance your portfolio, use project templates, monitor processes, and more to execute your goals with precision

Track

Automate bowling chart reporting, maintain performance with scorecards, demonstrate and link financial value, and build a culture of learning and achievement

More goals, less effort

i-nexus takes you from plan to action with strategic portfolio management tools. Group projects and programs into strategic portfolios, keep on top of investments, resources, and ensure a business agility that allows you to adapt to tomorrow.

Deliver more of your goals from your portfolios, like:

Transformation

Operational excellence

Mergers and Acquisitions

Revenue and CAPEX

ESGs

Private equity

Solutions for every part of your business

No matter where you sit, i-nexus helps you achieve your goals with solutions that fit your entire business - from your executive team to finance and the shopfloor:

-  i-nexus Workbench gives you the tools to deliver your goals
-  i-nexus Pulse makes it easier to update metrics and journals on-the-go
-  i-nexus Data Warehouse (IDW) unlocks your i-nexus data for adhoc reporting in your BI tools

Matching your needs

i-nexus strategy software is built with integrated features, scalable to your needs, and accessible from wherever you are.

Collaborate, customize, govern processes and approvals, all based on your ways of working, it's all possible inside i-nexus.

Mission-critical safety

i-nexus strategy software is AWS hosted, with disaster recovery capabilities, 99.9% uptime, ISO 27001 certification, GDPR compliance, and more.

Your mission critical goals are safe inside i-nexus.

The i-nexus difference

We wrap around you

i-nexus wraps around how you want to deliver your goals. Languages, locations, products, processes. Exactly how you want it. All inside one solution.

We support

We use two decades of experience in strategy execution, Hoshin Kanri, Lean, and project management to help you overcome challenges, spot gaps, and accelerate success.

We integrate

i-nexus is your single source of truth, connecting project management software, ERP, CRM, and other critical systems to give you a total view of what matters to deliver results.

Trusted by global organizations

The key mission of my team is to meet strategic and short term goals. Every project is a step towards that goal, thus the project managers must ensure their projects align to our strategy and goals. If they do not, it leads to project overload and a waste of resources and team efforts. Without the linkage to long-term motives i-nexus gives us, our project portfolio is practically blind to our business.
